

The Workspace & INDEX, which took place from 19th to 22nd May in Dubai, was a huge success for Interstuhl and its long-standing partner NOA Offices. Three seating innovations of the communication furniture were the centre of attention: VINTAGEis5, KINETICis5 and NESTYis3 - all produced at our Swabian location and therefore "100% made in Germany". A special highlight on the exhibition booth was the 4x5m wall, which displayed the conference chair VINTAGEis5, in its formation phase with the first outlines from the designer Volker Eysing. Also, the new office swivel chair EVERYis1 Chillback, celebrated its debut. EVERYis1 is an all-rounder, which combines functionality and unlimited seating pleasure with the typical efficiency of Interstuhl.

Mr. Mohammad Al Qutami, minister of education of the United Arab Emirates, was welcomed by Interstuhl and NOA Offices as a special guest on their booth. He took a seat on the bar chair KINETICis5.
