

Prospects

From 27th to 29th May 2014, interstuhl will join again at the international office industry exhibition Office Next in Moscow. It takes place in a new location this year: Merchant Yard (Gostiny Dvor) - Moscow. The business and exhibition centre in the heart of Moscow is very close to the Kremlin.

During the exhibition, interstuhl's new communication products VINTAGEis5 and KINETICis5 will be on display, which contribute to the design of the future working environments. Additional interstuhl highlights will be presented on the stands of our partners SOLO and Büromöbel RUS. Come and be inspired!
