

From 5th - 9th February 2013, we exhibited together with our partner SA-Möbler from Sweden at the exhibition in Stockholm. On this occasion, the MOVYis3 was introduced into the Swedish market. The trade fair had about 37000 visitors.

Our company was also very well presented in the SA Showroom in the centre of Stockholm. Like at the exhibition stand, our chairs MOVYis3 and AirPad played a central role there. Furthermore, we drew the attention to our company history and philosophy.
