

Faces. Stories. History.

The Zollernalb Film GmbH from Rosenfeld, created an entertaining and inspiring documentary about everything that makes the Zollernalbkreis loveable and liveable, now available on DVD, in cinema and on the web. For those who call the Zollernalbkreis 'loving ZAK' and want to know more about it because it is their home or possible home soon and of course for those who have never heard of the ZAK. The benefits of an economically and scenically, extraordinary region had to be told emotionally and memorably. ZAK THE MOVIE tells the story of very diverse people who represent very different ways of living and commonly feel that ZAK is their home for many different reasons. Even Werner Link, our successful and internationally active senior boss, has always remained true to his home region and has never considered setting up in another location. One year - Eight protagonists - Countless hours of film material. What began with an idea at the beginning of 2013, found its crowning glory with the ceremonial premiere of 'ZAK THE MOVIE' in the town hall of Balingen in early December. With a red carpet, prestigious audience and a perfectly staged performance of the documentary, over 600 guests enjoyed an evening and were mesmerized by the Zollernalbkreis, which many call their home.

The film can be ordered online at www.zollernalb-film.de at the price of EUR29.95. Enough said, we prefer to let the pictures speak: Et voilà!
