

From the 9th till 13th february the Stockholm Furniture & Northern Light fair took place in which also Interstuhl was participating.

Interstuhl presented the swivel chair families Goal, YOSTERis3, EVERYis1 and MOVYis3 as well as the conference armchair VINTAGEis5. One of the highlights was our new planning tool, the TANGRAMis5-app, which allows you to position the sofa elements of TANGRAMis5 virtual in a room. Guests who wanted to recover from a long walk through the fair could take a seat on a KINETICis5 bar stool or in our sofa lounge and were offered small refreshments.

The visitors were mostly dealers, architects, end-customers and ergonomist from the scandinavian countries, which brought us succesfully one step further on the Scandinavian market.
