

We're happy to announce that VINTAGEis5 just won the Innovation Award and the Silver Award at NeoCon 2017. On NeoCon we were showcasing our new product VINTAGEis5, which enables you to create diverse workplace situations. Innovations in the world of work lead to changes in the workflow and workplace adaptations. For this reason, companies have to design the workplace of the future in such a way that they support the employees in their tasks as best as possible. Workplaces nowadays are more diverse than ever. NeoCon shows trends in the field of work and business environment. Interstuhl supports these workplaces with new suitable products. Interstuhl develops office solutions for the future: Agile, innovative and communicative work can not take place in traditional office forms, it needs an environment that supports this way of working. Therefore the office of the future should not only enable to work better and more efficient, but also to protect the health of employees. At NeoCon 2017 we shared our latest ideas and thoughts on these topics. Get in touch with [VINTAGEis5!](#)
