Production will run at full capacity this week until Thursday. Due to the reduced ability to deliver to all customers, we will reduce production capacity by 50 percent from Friday, March 27 to April 9. During the Easter week the production will be completely suspended. From April 20 onwards, production will be running at full capacity again. During this whole time, your contact persons in the sales, purchasing and incoming goods departments are available for you.

Due to our high vertical range of manufacturing in Germany, we can maintain our production and produce your orders as usual. We kindly ask you to check your order confirmations and inform us if you are unable to pick up your order, or to accept our deliveries. For country specific information feel free to contact our local sales team.
