Upholstery	Seat, back and armrest upholstery, breath-actively moulding foam, CFC- and CHC free (segregated foam). Seat: 60 mm foam + 10 mm decron layer. Armrest 30 mm foam.	Paddings are unglued, ensuring optimal air movement. Breathable.
Mechanism	Synchronous mechanism which can be locked with weight regulation. Opening angel between seat and back 116°.	Synchronous mechanisms of Interstuhl are designed in a way that they help to support optimally the body in every seating position and at the same time they relieve the changes between the different seating positions.
