Benefit

Metal parts, colour finish Brushed, silver.

Brushing is a method that emphasise the character and material properties of aluminium in a particularly genuine way. This also includes minor irregularities in the surface that make every chair/table a unique item. A subsequently applied protecting lacquer prevents premature signs of ageing; on the other hand, aluminium is a material that tends to become more valuable the more its is used.

Table top finishes Wood: HPL white, oak, American walnut, European cherry, Makassar or Minerale cocoon (acrylate-bonded natural mineral) white, 26 mm. Edges: 6 mm straight, 20 mm bevelled edge.

Bevelling the top edge gives the table a more stylistic appearance.

Glides Soft plastic glides, transparent, for hard floors.

Spare the floor.

Accessories Semi-Aniline leather pad for wood and glass top.
